

Steam-sterilized fish cake

Alsa Agro Tech Ltd. of Hyderabad, India, has reported that steam-sterilized fish cake is free from all bacterial infections such as *Salmonella*, *E. coli*, etc. Fish sun-dried on sand contains sand and moisture, thereby leading to fungus infection. Steam-sterilized fish cake is rich in amino acids and proteins and could replace dry fish, soya meal and sun-dried fish meal used as poultry feed. The easily digestible feed product contains nutritious food values and increases resistance power. It is ideal for broilers, and increases the bird's weight, egg yield, fertility and hatchability. *Contact: Alsa Agro Tech Ltd., 4-104, 1st Floor, Dilsukhnagar, Hyderabad 500 060, Andhra Pradesh, India.
