

## MDI product development

Viatriis GmbH & Co., Germany, offers a full range support service in the development of MDI products. The company is a member of the International Pharmaceutical Consortium for Toxicological Testing (IPACT), which gives its subsidiary Sofotec access to the full database of CFC substitute propellants, like HFA-227 (1,1,1,2,3,3,3-heptafluoropropane) and HFA-134a (1,1,1,2-tetrafluoroethane) regarded as suitable for medical products. Sofotec has all laboratory facilities required for both pressure filling and freeze filling in a GMP clean room. *Contact: Ms. Anja Stader, Viatriis GmbH & Co., KG Weismullerstr. 45, Frankfurt/Main D 60314, Germany.
